

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

But if in their opinion such improvement is not of sufficient importance to the public to cause such damages and compensation, or any part thereof to be paid by the county, they shall fix and determine the proportionate amount thereof which should be paid by the several landowners benefited by the improvement. And in either case the commissioners shall direct the auditor to issue an order on the county treasurer to each of the several claimants to whom compensation or damages was allowed for the amount due, and to enter on the ditch duplicate the amounts assessed against the several benefited landowners for the payment of such compensation and damages, payable in the same ratio and manner as other assessments, and to be collected as other taxes. And the commissioners shall assess and apportion the compensation and damages found by the jury, as directed in section (4461) forty-four hundred and sixty-one, and the commissioners shall assess and apportion the costs as directed by the probate court, which shall be collected and paid as directed and provided in section forty-four hundred and seventy-two.

Relating to the imprisonment of convicts in the Ohio penitentiary, and the employment, government and release of such convicts by the board of managers. ~~_____~~ ~~_____~~

SECTION 1. *Be it enacted by the General Assembly of the State of Ohio*, That the government and control of the Ohio penitentiary and of the prisoners sentenced thereto, shall be

vested in a board of managers, to consist of five members, at least two of whom shall be practical and skilled mechanics, and not more than three members of said board shall belong to the same political party; to be appointed by the governor by and with the advice and consent of the senate, one to serve one year, one two years, one three years, one four years, and one five years, as may be designated by the governor at the time of their appointment, and at the expiration of the term of office of each member of the board, his successor shall be appointed in the manner and by the authority as hereinbefore provided, but for the term of five years. Whenever a vacancy occurs in the board of managers otherwise than by the expiration of the term of a manager, such vacancy shall be filled by appointment by the governor, by and with the advice and consent of the senate, if the senate be in session, and if the senate be not in session, then the appointment by the governor shall be subject to the confirmation of the senate when it next convenes, for such term to be designated by the governor at the time of appointment, as shall preserve and insure the rotation in office of the managers the same as if one manager should be appointed every year, at the expiration of a manager's term, for the term of five years; provided, that the governor may, at his discretion, remove any member of the board of managers.

Vacancy in board, how filled.

SEC. 2. Immediately upon their appointment and confirmation, as herein provided, the board of managers shall convene in the city of Columbus. The president of the board shall be the member having the shortest term to serve; three members of the board of managers shall constitute a quorum for the transaction of ordinary business, but for the appointment and removal of the warden and any business relating thereto, a quorum shall consist of the five members of the board. The managers shall give so much of their time and attention to the affairs of the penitentiary as shall insure wise, efficient, and faithful management thereof, and the managers shall receive no compensation, but shall be entitled to and shall receive, to be paid by the treasurer of state upon warrants issued by the auditor of the state for all necessary expenses incurred in the performance of their duty. The managers shall examine the books and accounts of the penitentiary as kept by the officers thereof, once in each month, and shall audit all claims against the penitentiary, and shall file with the auditor of state a monthly statement of all the financial transactions of the penitentiary, showing in detail all moneys received and paid out, from whom received and to whom paid, which statements shall be open to public inspection, and a summary thereof shall be published in the annual reports. And, generally, the board of managers shall have charge of all the concerns of the penitentiary, and shall make an annual report to the governor on or before the fifteenth day of November each year, and in their annual report, the board shall give a classification of all the prisoners, showing their ages, term of sentence, offense committed, cause of crime, number of times

convicted, habits, education and industrial relations (which shall be entered in the register as hereafter provided), and such other information and recommendations as they deem best for the information of the legislature. The board shall prepare rules for its own government, and for the government of the penitentiary in accordance with the provisions of this act and subject to the approval of the governor.

SEC. 3. No member of the board, and no officer of the penitentiary, except the warden and his family, and matrons shall become residents of the same, or live therein, but the sessions of the board shall be held in the institution in suitable rooms furnished for the purpose.

SEC. 4. The contract system of employing convicts shall not exist in any form in the Ohio penitentiary, but the prisoners shall be employed by the state, and in such way as to in the least possible manner interfere with or affect free labor, and the managers shall use every effort to so dispose of all merchandise as to avoid injurious competition with any business of citizens of the state. All prisoners under the age of twenty-two years shall be employed at handwork exclusively, for the purpose of acquiring a trade. The managers are required to employ all the prisoners that are necessary in making all articles for the various state institutions, as far as practicable, and the institutions shall pay to the penitentiary the market price for all of such articles furnished.

SEC. 5. Every sentence to the institution of a person hereafter convicted of a felony, except for murder in the second degree, who has not previously been convicted of a felony and served a term in a penal institution, shall be, if the court having said case thinks it right and proper to do so, a general sentence of imprisonment in the penitentiary. The term of such imprisonment of any person so convicted and sentenced, may be terminated by the board of managers as authorized by this act, but such imprisonment shall not exceed the maximum term provided by law for the crime for which the prisoner was convicted and sentenced; and no prisoner shall be released until after he shall have served at least the minimum term provided by law for the crime for which the prisoner was convicted.

SEC. 6. Every clerk of any court by which a criminal shall be sentenced to said institution, whenever the term of such sentence may not be fixed by the court, shall furnish the warden or other officer having such criminal in charge, a record containing a copy of the indictment and of any special plea; the name and residence of the judge presiding at the trial; also of the jurors and of the witnesses sworn on the trial; with a statement of any fact or facts which the presiding judge may deem important or necessary for the full comprehension of the case; and of his reasons for the sentence inflicted.

The clerk of the court shall be entitled to such compensation in every case in which he shall perform the duties required by this act, as shall be certified to be just, by the

SEC. 7. The board of managers shall, subject to the approval of the governor, make such rules and regulations for the government of the prisoners as shall best promote their reformation; they shall make provision for the separation or classification of prisoners; their division into different grades; with promotion and degradation according to the merits of the prisoners; their employment and instructions in industry; their education; their conditional and absolute release; their arrest and return to custody within the institution; and, generally, as may from time to time appear to be necessary or promotive of the purposes of this act. But in no case shall a prisoner be released either conditionally or absolutely unless there is, in the judgment of the managers, reasonable ground to believe he will, if released, live and remain at liberty without violating the law, and that his release is not incompatible with the welfare of society. And no petition or other form of application for the release of any prisoner shall be entertained by the managers.

Rules and regulations to be prescribed by managers.

SEC. 8. The said board of managers shall have power to establish rules and regulations under which prisoners sentenced to imprisonment under section 5 of this act, may be allowed to go upon parole outside of the buildings and enclosures, but to remain, while on parole, in the legal custody and under the control of the board, and subject at any time to be taken back within the enclosure of said institution; and full power to enforce such rules and regulations, and to retake and reimprison any convict so upon parole, is hereby conferred upon said board, whose written order, certified by its secretary, shall be a sufficient warrant for all officers named therein, to authorize such officer to return to actual custody any conditionally released or paroled prisoner; and it is hereby made the duty of all officers to execute said order the same as ordinary criminal process.

Rules and regulations, for parole of prisoners.

SEC. 9. The warden is hereby authorized to have placed to the credit of each prisoner (except those serving a life sentence) such amount of their earnings as the board of managers may deem equitable and just, taking into account the character of the prisoner, the nature of the crime for which he is imprisoned, and his general deportment, provided that such credit shall in no case exceed twenty per cent. of his earnings. And the funds thus accruing to the credit of any prisoner shall be paid to him or his family, at such time and in such manner as the board of managers may deem best, provided that at least twenty-five per cent. of such earnings shall be kept for and paid to such prisoner at the time of his restoration to citizenship. And, provided further, that the warden may, with the approval of the board of managers by way of punishment for violation of rules,

SEC. 10. It shall be the duty of said board of managers to maintain such control over all prisoners committed to their custody, as shall prevent them from committing crime, best secure their self-support, and accomplish their reformation. When any prisoner shall be received into the institution upon direct sentence thereto, they shall cause to be entered in a register the date of such admission, the name, age, nativity, nationality, with such other facts as can be ascertained of parentage, and of early social influences as seem to indicate the constitutional and acquired defects and tendencies of the prisoner, and based upon these an estimate of the then present condition of the prisoner, and the best probable plan of treatment. Upon such register shall be entered, from time to time, minutes of observed improvement or deterioration of character, and notes as to methods and treatment employed; also, all orders or alterations affecting the standing or situation of such prisoner, and any subsequent facts of personal history which may be brought, officially, to the knowledge of the managers, bearing upon the question of the final release of the prisoner, or his being suffered to go out on parole.

And it is hereby provided that any prisoner violating the conditions of his parole or conditional release (by whatever name), as affixed by the managers, when by a formal order, entered in the manager's proceedings, he is declared a delinquent, shall thereafter be treated as an escaped prisoner owing service to the state, and shall be liable, when arrested, to serve out the unexpired period of the maximum possible imprisonment, and the time from the date of his declared delinquency to the date of his arrest shall not be counted as any part or portion of time served. And any prisoner at large upon parole or conditional release committing a fresh crime, and upon conviction thereof, being sentenced anew to the penitentiary, shall be subject to serve the second sentence, after the first sentence is served or annulled, to commence from the date of termination of his liabilities upon the first or former sentence.

SEC. 11. The board of managers shall appoint as warden a person who, from practical experience, possesses the ability and qualifications necessary to successfully carry on the industries of the penitentiary, and who possesses the executive ability essential to the proper management of the officers and other employes under his jurisdiction, and to enforce and maintain proper discipline in every department; said warden shall hold his office [during good behavior] for four years unless sooner removed for cause, and in no case shall be removed for political or partisan reasons.

SEC. 12. It shall be the duty of the warden, with the advice and consent of the board of managers, to appoint a secretary, a steward, a physician, a clerk, a superintendent, when necessary, for each department, a captain of the night-watch, and such other officers and employes as may be

necessary to carry on the industries, and the educational, moral and religious features of the institution; such officers and employes shall be selected for their fitness and qualifications for their position for which they may be appointed or employed, and shall hold their offices and places of employment during the pleasure of the warden and the board of managers, and not more than one of the guards and minor officers shall be selected from the same county, until one of said officers and guards shall be appointed from actual residents of each county in the state; but no officer or employe shall be appointed or removed for political or partisan reasons; such officers and employes shall each receive a salary to be fixed by the board of managers, upon the recommendation of the warden, which salaries shall be approximate to, but shall not be in excess of, salaries paid the same class of labor outside the penitentiary.

When right to compensation barred.

if they find that such improvement and removal of said mill-dam or mill-dams will be conducive to the public health, convenience or welfare, they shall at once proceed to negotiate with and purchase of the owner or owners of such mill-dam or mill-dams, all rights, title and interest they may have to or in the same, and all franchises pertaining thereto, receiving thereby the absolute right to remove the same for the free passage of water in the channel of such stream. Said purchases to be made upon such terms and for such price as may seem reasonable and just to said commissioners; at the same time said commissioners shall take with them a competent surveyor or engineer, who shall make a careful estimate of the necessary cost of removing said mill-dam or mill-dams for the free passage of water in the channel of such stream. Said commissioners shall fix a day for further hearing, and order that due notice be served, in writing, by the principal petitioners, upon each and every one of said petitioners, of the time and place of said hearing. If, on said hearing, it appears to the commissioners that the notice herein provided for has not been given, the commissioners shall adjourn to some future time, not exceeding twenty days, and shall order such notice to be given. On the day fixed by the commissioners for final hearing, they shall meet at the time and place appointed, and shall then and there state and make known to the petitioners the amount asked by the owner or owners of such mill-dam or mill-dams of all their right, title and interest to and in the same and the franchises pertaining thereto, and for the right to remove the same so that the waters of such stream shall pass through without hindrance; and the necessary cost of removing said mill-dam or mill-dams, as estimated by said engineer or surveyor, together with all other taxable costs of the proceedings. Said commissioners shall then apportion to each of said petitioners, in a fair and equitable manner, according to the benefits to be derived therefrom, as nearly as can be done, all costs of the proceedings, as in county ditch cases, the amount asked by the owner or owners of said mill-dam or mill-dams, and agreed upon as above, and the amount of cost necessary to the removal of said mill-dam or mill-dams, as reported by the surveyor or engineer. (But in any case, where a mill has become useless or has been destroyed, and has so remained for more than ten years, without any attempt to repair or rebuild the same, the mill-dam and water-rights and privileges belonging to the same shall be deemed abandoned and the right thereto as against the public health, convenience and welfare, under this act, shall cease and be barred; and the commissioners may, under this act, without bargain or compensation, cause such mill-dam to be removed and the water course upon which it is located cleaned out and improved, when an apportionment has been made, as hereinbefore stated.) The commissioners

shall then order the said amounts to be placed upon the tax duplicates, against the real estate of said petitioners benefited by the removal of such dam, and to be collected within the time and to meet the payments as far as practicable, in conformity with the provisions of the county ditch law, agreed upon between said commissioners and said mill-dam owner or owners, adding to the first year's assessment the taxable costs of the proceedings, and the estimated costs of removing said mill-dam or mill-dams. Said assessment shall be collected the same as other assessments against real estate, and paid into the treasury of the county wherein said petitioners reside, and wherein said mill-dam or mill-dams are situated, and shall be paid out by the county treasurer on the warrant of the county auditor, who shall issue his warrants in accordance with the records and orders of the county commissioners. The surveyor or engineer appointed by the commissioners, shall sell at public outcry the work of removing such mill-dam or mill-dams, and supervise the same, as stated in sections forty-four hundred and seventy-five, forty-four hundred and seventy-six, forty-four hundred and seventy-seven and forty-four hundred and seventy-eight of the revised statutes of Ohio. AN ACT

To amend sections 394, 395, 396, 397, 398, 399, 400, 401, 402, 403 and 404 of the revised statutes of Ohio, as amended by an act entitled "an act to create the office of supervisor of oils, and to amend title three, chapter fifteen, of the revised statutes of Ohio," passed April 9, 1880, to repeal said sections as so amended, and to create the office of state inspector of oils.

SECTION 1. *Be it enacted by the General Assembly of the State of Ohio*, That sections three hundred and ninety-four, three hundred and ninety-five, three hundred and ninety-six, three hundred and ninety-seven, three hundred and ninety-eight, three hundred and ninety-nine, four hundred, four hundred and one, four hundred and two, four hundred and three, and four hundred and four, of the revised statutes of Ohio, as amended by an act entitled "an act to create the office of supervisor of oils, and to amend title three, chapter fifteen of the revised statutes of Ohio," passed April 9, 1880, be and the same are hereby amended so as to read as follows:

**Manner of
inspection of
petroleum
oils.**

Section 394. All mineral or petroleum oil, or any oil fluid or substance which is a product of petroleum, or into which petroleum or any product of petroleum enters or is found as a constituent element, whether manufactured within this state or not, shall be inspected, as provided in this chapter, before being offered for sale or sold for consumption for illuminating purposes within the state, and such inspection shall be conducted as herein provided, in the following manner:

The test shall be made in a test cup of metal or glass, cylindrical in shape, two and a quarter inches in diameter, and four inches deep, both measurements being made inside the cup, and this cup shall be filled to within one-quarter of an inch of the brim with the oil or other substance to be tested, taken at the ordinary temperature; the cup shall be placed in a water-bath sufficiently large to leave a clear space of one inch under the cup, and three-eighths of an inch around it, and in such manner as to project about one-quarter of an inch above the water-bath; the space between the cups and the water-bath shall be nearly filled with cold water taken at the ordinary temperature, and the cup being placed in the water-bath, the latter shall be heated by an alcohol lamp, with its flame so graduated that the rise in temperature from sixty degrees Fahrenheit to the highest heat test temperature shall not be less than two degrees per minute, and shall be as near two degrees per minute as is practicable, and shall in no case exceed four degrees per minute. A Fahrenheit thermometer shall be suspended in such a manner that the upper surface of its bulb shall be as near as practicable one quarter of an inch below the surface of the oil undergoing test; as soon as the temperature reaches the point of ninety-eight degrees Fahrenheit, the lamp shall be removed from under the water-bath, and the oil shall then be allowed to rise to the temperature of one hundred degrees

Fahrenheit, by the residual heat of water, and at that point the first test for flash shall be made as follows: a taper, hereinafter described, shall be lighted and the surface of the oil shall be touched with the flame of the taper, and it is lawful to apply this flame, either to the center of the oil surface or to any or all parts of it, but the taper itself shall not be plunged into the oil, and if no flash takes place upon the first contact of the flame with the oil, the taper shall not be held in longer contact, but shall be immediately withdrawn; if no flash takes place at the temperature of one hundred degrees Fahrenheit, the lamp shall be replaced under the water-bath, and the temperature raised to one hundred and three degrees, when the lamp shall be again withdrawn, and the oil allowed to rise to one hundred and five degrees by the residual heat of the water, when the test shall be made at one hundred and five degrees by again applying the flame of the taper as hereinbefore specified; if no flash occurs, the test shall be repeated as often as the oil gains five degrees in temperature, three degrees with the lamp under the water-bath, and two degrees with the lamp removed; these tests shall be repeated until a flash is obtained; the inspector shall further test the oil by applying the taper at every two degrees rise, without removing the lamp or stirring, but if a flash is obtained by this means by a less rise in temperature than five degrees herein required, he shall at once remove the lamp, stir the oil, and immediately apply the flame; the taper used for testing may be made of any wood giving a clear flame, and it shall be made as slender as possible and with a tip not more than one-sixteenth of an inch in thickness; no taper or match with sulphur upon it shall be used, unless the sulphur is removed before lighting; when the taper is lighted it shall be applied to the oil immediately, that is to say, before an ash or coal has had time to form on the end of the taper beyond the flame, and in applying the taper the flame shall be made to touch the oil, but the taper itself shall not be brought in contact with the oil, and if the taper is so brought in contact with the oil, but not held there longer than for the space of one second, and the oil flashes, the test shall not thereby be vitiated, but the inspector shall immediately remove the lamp, and again test the oil by the flame without allowing the body of the taper to touch the oil; no oil or other substance, which, by the test herein described, flashes at any temperature below one hundred and twenty degrees Fahrenheit, shall be allowed to be sold, or offered for sale, or consumed for illuminating purposes in this state; but it shall be deemed a sufficient compliance with the provisions of this section to test the oil or oils herein described by an apparatus known as the "Foster cup" or Foster's automatic oil tester; and it is lawful to sell, for illuminating purposes, any oil or oils herein described, to be consumed within the state, which bear a flash test of one hundred and twenty degrees Fahrenheit, as shown by said apparatus, and the state inspector is hereby authorized to substitute the test by the Foster cup or Foster's automatic

oil tester, instead of the test by the open cup, as herein provided, if, in his judgment, by such change a greater uniformity of test throughout the state will be secured.

State inspector of oils; appointment and term of. Section 395. Immediately upon the taking effect of this act, the governor shall appoint, by and with the advice and consent of the senate, a skilled and suitable person, who is not interested in manufacturing, dealing, or reducing any illuminating oils manufactured from petroleum, as state inspector of oils, whose term of office is for two years, to commence from the fifteenth day of May, 1884, and continue until his successor is appointed and qualified; and in case of a vacancy occurring by death, resignation, or otherwise, the governor shall fill the same as provided in section twelve of the revised statutes of Ohio; provided, that the present state supervisor of oils shall continue in office and perform the duties of state supervisor of oils, under this act, until May 15, 1884. The inspector when so appointed and qualified is empowered to appoint a suitable number of deputies who are not interested in manufacturing, dealing, or vending any illuminating oils manufactured from petroleum, who are empowered to perform the duties of inspection, and are liable to the same penalties as the inspector; and the inspector may remove any of the deputies for reasonable cause and appoint others on their place; provided, that all deputy supervisors of oils now in office shall remain and perform the duties thereof, under this act, until May 15, 1884. The inspector and his deputies shall provide themselves, at their own expense, with the necessary instruments and apparatus, and stencils, brands and stamps, for testing and marking the quality of illuminating oils, and when called upon for that purpose to promptly inspect all oils herein mentioned, and to reject for illuminating purposes, for consumption in this state, all oils which, by being adulterated with naphtha, benzine, paraffine, or other light oils or other substance, or for any other reason, will not stand and be equal to the test herein prescribed. The inspector shall prepare the forms of all stencils, brands, and stamps provided for in this chapter, and also such general regulations and rules for inspection, not inconsistent with the terms and provisions of this chapter, and such rules and regulations shall be binding on all deputy supervisors in the state. The inspector and his deputies are required to test the quality of all mineral or petroleum oils, or any oil, fluid, or substance which is a product of petroleum or into which petroleum or any product of petroleum enters, or is found as a constituent element, which is offered or intended to be offered for sale for illuminating purposes in this state, and if upon such testing or examination the same meets the requirement herein specified, the inspector or his deputies shall affix by stencil or brand, on any package, cask or barrel containing the same, and by a stamp subscribed with his official signature, the word "approved," with the date of such inspection; and it will then be lawful for any manufacturer, vendor, or dealer to sell the same, to

The deputy inspectors must each execute a bond to the state in the sum of five thousand dollars, with sureties to be approved by the judge of probate of the county where the deputy is located, and file the same with the clerk of the court of common pleas in the county where he resides. AN ACT

To amend sections 5 and 7 of the act entitled "an act relating to the imprisonment of convicts in the Ohio penitentiary, and the employment, government and release of such convicts by the board of managers," passed March 18, 1884.

SECTION 1. *Be it enacted by the General Assembly of the State of Ohio,* That sections five and seven of the act entitled "an act relating to the imprisonment of convicts in the Ohio penitentiary, and the employment, government and release of such convicts by the board of managers," passed March 18, 1884, be amended so as to read as follows:

Court may
give general
sentence to
penitentiary.

Section 5. Every sentence to the penitentiary of a person hereafter convicted of a felony, except for murder in the second degree, who has not previously been convicted of a felony and served a term in a penal institution, may be, if the court having said case thinks it right and proper, a general sentence of imprisonment in the penitentiary. The term of such imprisonment of any person so convicted and sentenced may be terminated by the board of managers, as authorized by this act; but such imprisonment shall not exceed the maximum term provided by law for the crime of which the prisoner was convicted and sentenced; and no

such prisoner shall be released until after he shall have served at least the minimum term provided by law for the crime of which he was convicted.

Section 7. The board of managers shall, subject to the approval of the governor, make such rules and regulations for the government of the prisoners as shall best promote their reformation, and, generally, as may from time to time appear to be necessary or promotive of the purposes of this act. They shall make provision for the separation or classification of prisoners, their division into different grades, with promotion and degradation according to merit, their employment and instruction in industry, their education, and for the conditional or absolute release of prisoners sentenced to imprisonment under section five of this act, and their arrest and return to custody within the institution; but in no case shall any such prisoner be released, either conditionally or absolutely, unless there is, in the judgment of the managers, reasonable ground to believe that he will, if released, live and remain at liberty without violating the law, and that his release is not incompatible with the welfare of society; and no petition or other form of application for the release of any prisoner shall be entertained by the managers. In order that good behavior may be properly rewarded, the board shall provide, in its rules and regulations, for a correct daily record of the conduct of each prisoner, and his fidelity and diligence in the performance of his work. A convict who shall pass the entire period of his imprisonment without a violation of the rules and discipline, except such as the board shall excuse, shall, upon his absolute release or discharge, be restored to the rights and privileges forfeited by his conviction, and he shall receive from the governor a certificate, under the great seal of the state, as evidence of such restoration, to be issued upon presentation to the governor of a certificate of such conduct, which shall be furnished to such convict by the warden. A convict who is not thus entitled to a restoration of the rights and privileges forfeited by his conviction, who has conducted himself in an exemplary manner for a continuous period of not less than twelve consecutive months succeeding his absolute release or discharge, and presents to the governor a certificate of that fact, signed by ten or more good and well known citizens of the place where he has resided during such period, certified to be such by the probate judge of the county wherein they reside, and whose signatures are certified by such judge to be genuine, shall be entitled, in consideration thereof, to a restoration of the rights and privileges forfeited by his conviction, which restoration shall be evidenced by a certificate of the governor, under the great seal of the state. Each convict who is sentenced for a definite term, other than for life, shall be entitled to diminish the period of his sentence under the following rules and regulations:

(b) After he has passed one full year of his sentence, in which he has not been guilty of a violation of discipline, or any of the rules of the prison, and has labored with diligence and fidelity, the deduction shall be seven days from the period of his sentence, for each month.

(c) After he has passed two full years of his sentence as above provided, the deduction from his term shall be nine days for each month.

(d) After he has passed three full years of his sentence, as above provided, the deduction from his term shall be ten days for each month.

To forfeit
time by vio-

rules.

2. For a violation of the rules and discipline, or for a want of fidelity and care in the performance of work, he shall not only forfeit all time gained for the month in which the delinquency occurs, but, according to the aggravated nature or the frequency of his offenses, the board may deduct a portion or all of his time previously gained, but the board may review the conduct record of a convict, and, if it appear that any violation of the rules and discipline was committed through ignorance, or circumstances beyond his control, or abuse by any officer, may restore him to the standing he possessed before such violation.

They shall cause a description of the districts so made or altered to be entered in the township record; after such division or alteration they shall appoint one supervisor of roads for each district so constructed, who shall be a resident of such road district and not related to either of the trustees making such appointment. AN ACT

To remedy some of the injuries caused by the burning of the offices of the auditor, treasurer and commissioners of Hamilton county.

WHEREAS, The court house of Hamilton county was burned on March 29, 1884, and the tax lists, duplicates, books and papers, in the offices of the auditor, treasurer and commissioners of said county, were lost or destroyed before the semi-annual settlement was completed; therefore,

SECTION 1. *Be it enacted by the General Assembly of the State of Ohio.* That the auditor of said county shall have power, and he is hereby directed as rapidly as possible to make up a tax list and duplicate, both of real and personal property from all the information he can gather, to replace, as nearly as practicable, the list and duplicate for the year 1883, lost through said fire, which list and duplicate, when thus made up by him, shall be the legal tax list and duplicate of said county for the year 1883, and in all matters shall be considered and treated as the original list and duplicate for said year.

Sec. 2. To aid said auditor in making such list and duplicate, each person liable for the payment of taxes on real estate, and each person listed in the year 1883 for taxation on personal property, upon said lost list, shall at once produce and deliver to said auditor, or as by him directed, the receipted tax bill latest in date for the years 1881, 1882 and 1883, that such person may have in his possession or under his control; and said auditor shall give such notice by publication and make such demand for such receipts as he may deem best. For each receipt thus delivered, a voucher shall be given in such form as the auditor may prescribe.

Sec. 3. In each case where such receipt thus delivered to the auditor is for the whole or part of the taxes for 1883, he shall enter upon the real or personal list and duplicate, as the case may be, so far as shown by said receipt, the name of the person, the description and value of the property, the amount of taxes assessed, the amount paid, and the date of such payment. And in all cases where the receipts produced are for taxes on real estate for the year 1881 or 1882, said auditor shall enter the same facts upon a separate list, and upon the list and duplicate shall enter the name of the person, the description and value of the property, and taxes at the rate levied thereon for all purposes for the year 1883.

SEC. 4. In case any person liable for taxes on real estate fails, within twenty days after the first publication of notice, to produce and deliver such receipt, then, and in each such case, said auditor shall enter such person's name upon the list and duplicate, together with as accurate a description of the real estate as possible, and unless said auditor can accurately ascertain the assessed value of said property from papers issued from his office or the office of the treasurer of said county, or copies thereof, including official publications of delinquent, forfeited, and other lists, he shall forthwith assess the value of such real estate, and enter such assessed value on said list and duplicate, and thereupon shall levy and assess against the same taxes at the rate levied for all purposes for the year 1883. If any person liable for taxes on personal property fail within said twenty days to produce the receipt for taxes due in December, 1883, said auditor shall enter the name of such person on the personal list and duplicate, and place against the same such sum as was returned for taxation in the year 1883, as shown by the original blotter of the proper assessor, if in existence, if not, to be fixed by the oath of the person thus liable, and then failing, that by such mode as said auditor may decide upon, and thereupon said auditor shall levy and assess against said person taxes at the rate levied against him for all purposes for the year 1883. And unless the person thus failing to produce and deliver such receipt shall satisfy the auditor that the non-production thereof is owing to circumstances beyond his control, said auditor shall note against said lot or land upon the tax list and duplicate of real property, or against the name of such person on the personal list and duplicate, as the case may be, the words, "Receipt not produced," and shall thereupon levy and assess against said land or lot, or against said person, or both, as the case may be, a penalty of twenty per centum on the taxes levied and assessed upon or against the same as shown by said list, which penalty shall be collected with the other taxes.

SEC. 5. To enable said auditor to make a correct list of taxable real estate and of the persons liable for taxes on personal property for the year 1883, and to enable him to learn any facts to aid in making said list and duplicate, said auditor is authorized to examine any books and plats which he is satisfied have been copied from the books and plats kept by said auditor, and should any person whom said auditor has reason to believe has possession or control of any such books or plats refuse to submit the same for his inspection and use, said auditor may apply to the probate judge of said county for an order for the production thereof, whereupon the said judge shall issue a citation to the person named by said auditor requiring him to show cause on some day to be fixed by said judge why said books and plats are not produced. And upon the hearing, if said judge be satisfied that it is within the power of such person to produce the books or plats desired by the auditor, he shall compel their production under such reasonable regulations as he may direct, and shall enforce his order by fine or imprisonment, or both, as for contempt of court. In all cases where the production of any book or plat is ordered, the costs of said application shall be paid by the person summoned; otherwise by the county.

SEC. 6. Said auditor shall have power and is hereby directed to reproduce the delinquent and forfeited tax lists and duplicates destroyed by said fire, and for that purpose may use the printed lists as advertised in 1883 and 1884 of forfeited and delinquent tax sales. Such lists when

made up shall be *prima facie* evidence that the lands and lots therein described were still delinquent or forfeited, as the case may be, on the thirtieth day of March, A. D. 1884, for the taxes charged against them on said lists.

SEC. 7. Said auditor and the treasurer of said county shall at once, from such sources of information as are within their reach, make a settlement of the amount of money properly chargeable against said treasurer, the amount of this collected by him, and the sum of money now in his hands; and said officers and the auditor of state, and a majority of them, shall apportion the amount of money said treasurer has collected among the several funds to which the same belongs, and assign to each fund from the money now on hand its true proportion thereof after deducting all advancements, according to the best of their information and belief. The settlement, apportionment and assignment so made shall be conclusive and final, and shall be so accepted in all future settlements of said treasurer. Certificates of said settlement, apportionment and assignment, signed by each of said officers making the same, shall be delivered to the commissioners of said county and spread upon their journal; and certified copies thereof shall be by them given to said treasurer, auditor, and the auditor of state.

SEC. 8. Inasmuch as all evidences of the temporary transfers from one to another of the funds under the control of said commissioners of said county, made prior to the thirtieth day of March, 1884, have been lost, and there is no way of restoring the same, said transfers shall be considered as fully repaid and satisfied, and the sum shown in each of said funds by the apportionment made under section seven of this act shall be taken to be the full sum due such fund from all taxes and receipts collected by said treasurer prior to said thirtieth day of March, subject to any provision for readjustment which may hereafter be made by law.

SEC. 9. The word "person" wherever used in this act shall have the meaning given it in section two thousand seven hundred and thirty of the revised statutes.

SEC. 10. This act shall take effect and be in force from and after its passage.
